Subject: Regulation 2976

Message:

I have many concerns about this regulation. I do not believe that a 'one size fits all' approach to standards is in the best interests to Pennsylvania families. Also, I am concerned with th idea of local control being lost by adoption federal standards. States should maintain control of education. Also, I believe that the public should have more time to review and understand this regulation prior to comments being closed to the public. With elections tomorrow, many U.S. citizens are focusing on making the right choice for president and will have missed this all together. Please consider leaving public comments open for a couple more weeks. Most importantly, please vote "NO" to this regulation. Thank you.
