Message:

I am in total opposition to implementing the new standards without public hearings. As a taxpayer, I should have a voice in implementing such an overtake of education by the Federal Government. Education is best achieved at local levels. Is the Federal Government going to absorb all the costs of this implementation? If my voice is denied, so are my school taxes and so are paychecks for this Commission. We nation is still a Republic and not a dictatorship. Please note my objection to this devious attack on local education.
