I completely disagree with these proposed changes and demand that the public be made aware of the federal government attempting to take over our educational system. With the implementation of Common Core Standards, we will no longer have any choice in the education of our children. As a homeschool parent, I will be forced to teach curriculum based on radical ideology which is contrary to my beliefs and standards. I also object to the cost of this program. Our nation is currently in a financial crisis – we simply cannot afford to waste our tax dollars on another useless federal program. There is no clear indication of how this program will be funded – much like Obamacare – but we, the tax payers, will be responsible for the bill. We have had enough. Do NOT submit to these changes. Thank you.
