Subject: IRRC #2976, changes to Chapter4 education regulations

Message:

While I agree that our educational system needs some serious changes, since teachers are coerced into passing students who have not mastered the subject material, I am really angry that the IRRC is trying to make drastic changes to the Chapter 4 education regulations without any public or legislative hearings. I do not want the federal government, with its liberal--or should I say, immoral--leanings, to dictate what views the young people in our nation should have!!
