(9) Is the regulation mandated by any federal or state law or court order, or federal regulation? Are there any relevant state or federal court decisions? If yes, cite the specific law, case or regulation as well as, any deadlines for action.

There are no other applicable federal or state statutes, regulations or court decisions that mandate adoption of these changes contained in this rulemaking.

(10) State why the regulation is needed. Explain the compelling public interest that justifies the regulation. Describe who will benefit from the regulation. Quantify the benefits as completely as possible and approximate the number of people who will benefit.

This rulemaking will give certificate holders additional operational flexibility in the games that they provide to patrons and is needed to establish the rules of play for new side wagers. Patrons who play these games will benefit from the standardization of the rules of play.

(11) Are there any provisions that are more stringent than federal standards? If yes, identify the specific provisions and the compelling Pennsylvania interest that demands stronger regulations.

There are no corresponding federal standards for any of these provisions in this rulemaking.

(12) How does this regulation compare with those of the other states? How will this affect Pennsylvania's ability to compete with other states?

This rulemaking expands the compliment of table games and side wagers available for patron play and should therefore not negatively impact Pennsylvania's ability to compete with other states.

(13) Will the regulation affect any other regulations of the promulgating agency or other state agencies? If yes, explain and provide specific citations.

This regulation will not affect any other regulations of the PGCB nor any other state agency.

(14) Describe the communications with and solicitation of input from the public, any advisory council/group, small businesses and groups representing small businesses in the development and drafting of the regulation. List the specific persons and/or groups who were involved. ("Small business" is defined in Section 3 of the Regulatory Review Act, Act 76 of 2012.)

No other persons or groups were involved in the development and drafting of the regulation. However, several operators and table game manufacturers had requested the use of linked progressives as well as the side wagers contained in this rulemaking.

(15) Identify the types and number of persons, businesses, small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012) and organizations which will be affected by the regulation. How are they affected?

There are currently twelve slot machine licensees that have a certificate to operate table games, all of which will be affected by the regulation in that they will have greater flexibility in the compliment of side wagers available for patron play. Casinos that operate in the Commonwealth of Pennsylvania are not small business as defined in the United States Small Business Administration's Small Business Size Regulations, under 13 CFR Ch. 1 Part 121.

(16) List the persons, groups or entities, including small businesses, that will be required to comply with the regulation. Approximate the number that will be required to comply.

Any of the twelve slot machine licensees that would like to offer linked progressives or the side wagers contained in this rulemaking will be required to comply with the requirements of the rulemaking.

(17) Identify the financial, economic and social impact of the regulation on individuals, small businesses, businesses and labor communities and other public and private organizations. Evaluate the benefits expected as a result of the regulation.

It is not anticipated that this rulemaking will have a negative financial or economic impact on the regulated community. Slot machine licensees will be impacted by this rulemaking as they will have a greater number of side wagers to offer at their facilities.

(18) Explain how the benefits of the regulation outweigh any cost and adverse effects.

This rulemaking will provide operators with more table game options to offer to patrons.

(19) Provide a specific estimate of the costs and/or savings to the **regulated community** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

Certificate holders that decide to offer the side wagers will be required to submit updated rules submission forms and internal controls to reflect any additions. The rules forms are simple checklists that take little time to complete, are available to the operators electronically and are also submitted electronically. Any costs incurred to purchase equipment and train employees should be offset by the proceeds of gaming.

(20) Provide a specific estimate of the costs and/or savings to the **local governments** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

This rulemaking will have no fiscal impact on local governments. Host municipalities and counties will benefit from the local share funding that is mandated by Act 1.

(21) Provide a specific estimate of the costs and/or savings to the **state government** associated with the implementation of the regulation, including any legal, accounting, or consulting procedures which may be required. Explain how the dollar estimates were derived.

The Board does not expect that the provisions contained in this rulemaking will have any fiscal impact on the Board or any other Commonwealth agency. Internal control procedures, table games rules submissions and LAP controller technology will be reviewed by existing Board staff.

(22) For each of the groups and entities identified in items (19)-(21) above, submit a statement of legal, accounting or consulting procedures and additional reporting, recordkeeping or other paperwork, including copies of forms or reports, which will be required for implementation of the regulation and an explanation of measures which have been taken to minimize these requirements.

As stated above, if an operator would like to offer any of the side wagers contained in this rulemaking, the operator will have to submit updated internal controls, rules submission forms, layout schematics, etc. for approval. The rules submission forms are straightforward checklists and are submitted electronically.

(23) In the table below, provide an estimate of the fiscal savings and costs associated with implementation and compliance for the regulated community, local government, and state government for the current year and five subsequent years.

FINAL-FORM RULEMAKING

PENNSYLVANIA GAMING CONTROL BOARD

58 PA.CODE CHS. 605a, 639a, 641a, 643a, 647a, 653a, 655a, and 657a.

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 13A02(1) and (2), proposes to amend chapters 605a, 639a, 641a, 643a, 647a, 653a, 655a, and 657a to read as set forth in Annex A.

Purpose of the Rulemaking

This rulemaking will add requirements for progressive table game systems that are linked between multiple tables within the same licensed facility, will add the Progressive Payout Wager to Crazy 4 Poker, Caribbean Stud, Four Card Poker, Let it Ride and Texas Hold 'Em Bonus Poker and the Bad Beat Wager to Four Card Poker.

Explanation

Progressive Table Games

In § 605a.7 (relating to progressive table games), subsection (a)(1) was amended and now requires the progressive meter on tables to increase in value based on the wagers. Unlike slot machine progressives, progressive jackpots on table games are player funded (with the exception of the seed amount). Therefore, the meter should always be incrementing every time a player places a progressive wager. For the same reasons, the Board has eliminated the option in (b)(4) to place caps or limits on the progressive jackpot amounts.

Subsection (b)(4) now requires that if an operator is going to fund a reserve pool with a portion of the patron's wager on a progressive, the proposed incrimination rate must be included in the operator's submission to the Gaming Lab.

For clarity, subsection (d)(1) and (2) were consolidated. Specificity was added in renumbered (d)(3) regarding what is to happen to a progressive jackpot amount if a meter malfunctions.

A new subsection (e) was added which prohibits operators from capping a meter or offering more than one progressive on the same table game (for instance a Five-Card AND Four-Card Progressive). The Board believes that having multiple progressives on the same table game will create problems with administering the progressives and will lead to confusion. In (e)(3), the Board added the requirement that if operators were to offer progressives, the required wager amount would have to be a set amount to ensure fairness to all players vying for the progressive jackpot (a percentage of the jackpot meter).

Subsection (e)(4) was added requiring operators to submit internal controls specifying how the licensee would reconcile concurrent jackpot wins from the same progressive meter. Subsection (e)(5) prohibits the removal of a progressive jackpot unless the operator receives written approval from the Board's Executive Director.

Linked Progressive Tables (LAP)

A local area progressive (LAP) controller links different games within the same licensed facility together for the purpose of offering a shared progressive jackpot. A definition of LAP was added in § 605a.1 (relating to definitions). A new section, § 605a.8 (relating to linked progressive table games) was added which includes key control and general system specifications for LAP controllers.

Additionally, to ensure fairness to all players, if a certificate holder is offering a linked progressive, all linked games must have the same probability of hitting the jackpot and the same amount must be wagered by all players participating in the side bet. See § 605a.8(g).

Progressive Payout Wager

The Progressive Payout Wager (referred to in several of the chapters as the Five-Card Progressive Payout Wager for those games that already include a Three or Four-Card Progressive Wager) is an optional side wager that the player's five-card hand will contain a three-of-a-kind or better. This side wager may be offered on a single table (such as one Four Card Poker table) on multiple tables (a bank of Four Card Poker tables) or across multiple games within the same licensed facility (Four Card Poker, Crazy 4 and Let it Ride tables, for example). The purpose of linking multiple tables and games together is to

increase the number of individuals contributing to and playing for the progressive jackpot amount.

With this rulemaking, the Progressive Payout Wager (Five-Card Progressive Payout Wager) may be played on any of the following games: Caribbean Stud Poker (Chapter 639a), Four Card Poker (Chapter 641a), Let It Ride Poker (Chapter 643a), Texas Hold 'Em Bonus Poker (Chapter 647a), Ultimate Texas Hold 'Em (Chapter 653a), Mississippi Stud (Chapter 655a) and Crazy 4 Poker (Chapter 657a).

For the games listed above, the definition of Envy Bonus and Envy Bonus Qualifying Hand was added in § a.1 (relating to definitions). In § a.2 (relating to Poker table physical characteristics), language was added specifying that if a facility were to offer a linked progressive, the table game system must comply with the new requirements in § 605a.8 (relating to linked progressive table games). For those games that did not previously include a payout based on a five-card Poker hand, hand rankings were added in § a.6 (relating to Poker hand rankings). A description of the Progressive Payout Wager was added in § a.7 (relating to wagers), how the wager is to be settled and when it is to be settled was added in § a.11 (relating to procedure for completion of each round of play), and the payout odds and amounts were added in § a.12 (relating to payout odds).

In addition to the revisions discussed above, several chapters were also amended to ensure that all players wagering on a progressive have the same probability of winning the jackpot.

In Caribbean Stud (Chapter 639a), the Progressive Payout Wager based on a five-card hand is already included as an optional side wager. However, the Progressive Payouts previously approved (tables A-C) may be utilized only on single table progressives but may not be used for linked table progressives. Therefore, language was added in §§ 639a.11 and 639a.12 specifying that if operators were to offer linked progressives, only payable D, which includes an envy bonus, could be utilized.

In the final regulation, table E was added and, like tables A through C, may be utilized only on single table progressives but may not be used on linked table progressives.

In Chapter 647a (relating to Texas Hold 'Em Bonus Poker), language was added in § 647a.2(c) specifying that if an operator were to offer the Progressive Payout Wager, the table must be

equipped with a progressive table game system. This language was added to this chapter because no other progressive wagers were previously authorized for Texas Hold 'Em. As this is the first progressive side wager authorized, additional requirements regarding the use of the progressive table game system were added in §§ 647a.8, 647a.9 and 647a.10 (relating to procedure for dealing the cards).

In Chapter 653a (relating to Ultimate Texas Hold 'Em Poker), clarifying language was added in § 653a.11 to ensure that only the player's two cards and the first three community cards (the flop) may be used to form the best five-card Poker hand for purposes of the Progressive Payout Wager. This clarifying language was included because allowing players to create the best five-card Poker hand from the seven cards dealt (the player's two cards and all five community cards) would create an advantage to players at Ultimate Texas Hold Em if those players were vying for the linked progressive jackpot against players at tables in which only the player's first five cards were used to create the best possible hand.

In Mississippi Stud (Chapter 655a), language was amended in § 655a.11(i)(4)(i)(D) (relating to procedures for completion of each round of play) for consistency with the other chapters that offer progressive jackpot payouts.

In Crazy 4 Poker, language was added in § 657a.11 (relating to procedures for completion of each round of play) specifying that for the Five-Card Progressive Payout Wager, the dealer shall consider all five cards dealt to the player to determine a winning hand. This clarifying language was included because all other wagers in Crazy 4 are based on the best four-card hand a player can make from the five cards dealt.

Bad Beat Bonus Wager

The Bad Beat Bonus Wager was added to Four Card Poker. The layout requirements were added in § 641a.2(b)(4), the wager description added to § 641a.7(d)(6), the procedure for payment of winning wagers and the collection of losing wagers was added in § 641a.11(c)(6) and the payout odds added in § 641a.12(f)
