Importance: High

April 9, 2015

I am writing to you regarding the above regulation proposed by the PUC and my concerns on the impact this will have on the Commonwealth of Pennsylvania and its residents.

Please review this potential regulatory change and its impact on the Certificated Household Goods Carriers.

The proposed final ruling addresses changes that the PUC deems necessary in order to increase competition, but not included in the rule are the comments of domicile on new applicants and increased fines for the unlicensed group that continues to be a major problem.

Why would these Rogues apply for authority, when they operate now without complying with the States rules and regulations governing this industry.

This places Pennsylvania certificated movers at a competitive disadvantage with these groups.

So rather than the PUC being vigilant, please tell them that these need to be included in the final rule making order, so that all everyone is on a level playing field.

Thank you for your time on this matter.

Sincerely,

Ana Maria Jones
