Re: Proposed Rulemaking
Household Goods in Use Carriers
and Property Carriers

To Whom It May Concern:

L-2013-2376902

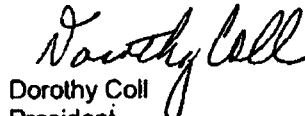

The proposed rulemaking changes by the PUC are welcome. It is time to do away with barriers for entry and allow the market to dictate the success or failure of operators. The elimination of geographic limitations is long overdue. We agree that this change will promote competition and provide consumers with more choices as to price, quality and reliability. We support the Proposed Rulemaking changes and congratulate the Public Utility Commission for their courage.

If you have any questions, please call us.

Very truly yours,
