To Concerned parties:

L-2013-2376902

The proposed rulemaking changes by the PUC are a very positive step. It is time to do away with barriers to entry and to allow the market to dictate the success or failure of operators. We are a PA based corporation that has for years struggled to explain to consumers the territory restrictions that often did not work in their favor. The elimination of geographic limitations is long overdue and will improve the options and competitiveness for PA consumers. We support the Proposed Rulemaking changes, and feel the Public Utility Commission is taking a stand that will benefit the people of PA and promote good business.

If you have any questions, please call us.

Sincerely,

Thomas P. Connolly, owner
