Re: Household Goods in Use Carriers and Property Carriers

To Whom It May Concern:

We are writing in support of the rulemaking changes by the PUC. It is time to do away with barriers for entry and to allow the market to dictate the success or failure of operators. The elimination of geographic limitations is long overdue. We agree that this change will promote competition and provide consumers with more choices as to price, quality and reliability.

We are the franchisor of **TWO MEN AND A TRUCK®** with several franchise locations in Pennsylvania. We support the proposed rulemaking changes, and congratulate the Public Utility Commission for their courage.

If you have any questions, please do not hesitate to contact me.

Sincerely yours,

Randy Shacka, President
