Ref. Proposed Rulemaking Regulation 57-298
Household Goods In Use & Property Carriers

Dear Secretary Chiavetta:

Regarding the proposed rulemaking several discussions took place between representatives of PMSA, Tristate and the Pa. P.U.C.

TRISTATE will defer to the individual member to provide their input regarding state wide authority as this directly affects both the value of their authority and business.

There are several other factors that are not a part of this proposed rulemaking but deserve consideration.

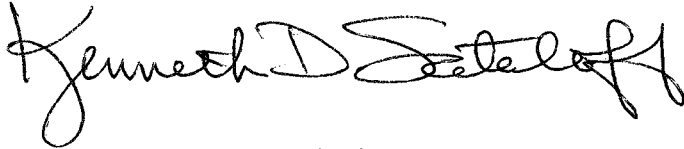

Applicant meeting the requirement to have a place of business within the Commonwealth of Pennsylvania. In order to have a level playing field and afford consumer protection, allow the Commonwealth the opportunity to collect additional revenues, PUC inspectors access to the location and equipment for inspection, increase the economic climate such as employ-Pennsylvania residents, paying taxes and support local business's and communities.

The other issue to look at is the role of the rogue operator in this scenario and how it would effect the residents of Pennsylvania. In conjunction raising fines to deter criminals from abusing residents of Pennsylvania, taking business away from legal movers and depriving the Commonwealth of Pennsylvania from additional revenues.

Thank you for your time and consideration.

If we can be of any further assistance please do not hesitate to advise.

Respectfully yours,
