Butler, PA 16001-8563

April 12, 2016

Dear IRRC,

Vote NO on a resolution or any other measure that comes before you to delay the adoption of regulations for both conventional and unconventional operators. People are suffering where drilling is occurring and I you must act to protect them, not the industry - insist that Chapter 78 and 78a, the gas and oil drilling rules be swiftly adopted .

All over the USA people are fighting against fracking. The frackers are turning our local and state governments into puppets for their own amusement and profits disregarding people's rights . There must be a stoppage to fracking before the people uprising and turn violent . The people whose lives are directly affected by fracking sites are fed up with the disregard to human and animal life. The federal government must stop this willful destruction of human life and dignity . The environment and life as we fought for is being destroyed by these frackers who are only out for money damn the people. You must remember the frackers motto is : there's a sucker born every minute .

The handicapped ,diseased, disabled, elderly, mentally compromised ,and crippled children need your help . I am a 100% service connected disabled veteran who along with these others need your help to stay alive in this destructive state ,a state that allows the drilling companies to do anything they want even if they destroy everything without penalty. Come down here talk to the diseased people or do as every government official who's paid off and allow drilling anywhere as long as it's not by their house or schools . Please save your people . I fought in a war to protect my country . Will you protect your country and people(. Who can't protect themselves )

Sincerely,  
Ronald Tokarchik
