Knox, PA 16232 US

Comments entered:

I would like to voice my opposition to proposed changes to the oil and gas regulations.

The proposed changes would be very detrimental and too costly for local producers that have been taking care of local wells for years.

We can afford to lose anymore jobs and loss of production vital to our local refineries, and the millions they put into our communities.

Please vote no on the proposed changes to the regulations for grandfathered shallow wells.

Thanks for your time,  
Richard Weaver
