Subject: Proposed Rulemaking - Additional RACT Requirements for Major Sources of NOx and VOCs

Re: Proposed Rulemaking - Additional RACT Requirements for Major Sources of NOx and VOCs

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

Pennsylvania's public health cannot handle any more lax pollution rules. As Pennsylvanians, we demand that the PA DEP STRENGTHEN its proposed rule. We need modern pollution controls on all coal-fired power plants, and the PA Environmental Quality Board is the state agency responsible for developing safe air regulations.

PLEASE - work for folks living in Pennsylvania, and not for the coal and energy companies!
Thank you for your attention.
