Subject: Continuing Education

2014 SEP -3 PM 2: 22

I have been a chiropractor for 17 years & have been around long before we could do our continuing education online. Having to take a day off & drive to a seminar was a tremendous waste of time. The last several years I have completed my requirements online. It is a great convenience to be able take classes between patients or in the evenings. Please consider keeping our requirements the same.

Sincerely,

Dr. Jonathan Pallone
