Subject: Opposition to new rule allowing only 12 online CE HOURS

I oppose the new rule change that would allow only 12 hours of online credit for chiropractors. The amount of material and education online is an asset/adjunct to anyone who wants to stay current with CE hours or just expand knowledge, understanding and application without the inconvenience of leaving your family, searching out or waiting for "the right seminar to come around" based on someone else's schedule are a few things that need to be considered and reasons why I oppose this change.

Thank you for your consideration.

Dr. Patti Ferro
