Subject: RE: Marcellus Shale - Chapter 101 - Public Comment Period - PennDOT

All,

Below are my thoughts for consideration.

Section 101.2 - Persons authorized to direct traffic.

101.2.9 - I'd like to see some language added to this paragraph to ensure midstream activities are not excluded, purely by definition. As written, this applies to "natural resource or mineral extraction sites", it would be best to add "including transmission and gathering facilities" or similar wording.

Section 101.3 - Minimum attire.

Section 101.3.1 - The option of controlling traffic with a red flag at intersections was not mentioned.

Section 101.3.7 - Add this section to apply to industrial/mineral/natural resource sites, or alternatively, add this language to section 101.3.1 to make sure the industry is covered, and has clear direction.

Thanks,

Matt

Matt Anderson, P.E., PTOE
