Corinne: We have reviewed the Liquor Control Board's Proposed Regulation #54-83 (IRRC #3095) entitled "Posting Requirements for Extension" and found that it has no direct effect on our membership. We agree with the change that it removes confusion between the posting of the notice and the filing of a protest to a license application. By extending the posting requirement to coincide with the comment period the change provides interested individuals adequate notice of what is being requested and the time to respond.

We appreciate this opportunity to review and comment on the regulation, and look forward to working with you in the future. Elam
