Hello

My name is Tony Brooks

I want to comment on the rule for Accessible Taxis for Philadelphia.

I will like to see taxis for the disabled, We are "Able" to live in a Community and will like to have an Accessible taxi as the others in the Community where you are on the streets and just hale a taxi get in and go,so we with Disabilities can't,we use public transportation and some times it is a better option to catch An Accessible Taxi.
