Subject: the Philadelphia Parking Authority 126-11 "Modern Taxicab Standards"

To Mr. Weldon, Mr. Ney, and The IRRC,

Please consider making all taxi cabs wheelchair accessible. For goodness sake, it is 2015 and everyone deserves access to taxi cabs. I cannot see why anyone would be against this idea because 1. more people will use cabs which equals more money for the cab drivers/companies 2. even if you are not traveling with a wheelchair individual, that means more legroom for you which is also a bonus. I personally am not wheelchair and I do not normally travel with wheelchair individuals, but I will be more inclined to use cabs if I knew everyone had the ability to use them. It's a great idea which should have happened a long time ago. Let's make this happen. Thank you for your consideration.

Regards,

Amanda Elizabeth Abene
