I support the Philadelphia Parking Authority's Proposed Rulemaking Order 126-11, which would require all vehicles proposed for taxicab service after a designated date to be wheelchair accessible. I believe that a fully accessible taxicab system is a vital component of any world-class city and reflects how a city respects the civil rights of its citizens and visitors. It is important that this rulemaking passes so that the City of Brotherly Love becomes the first city in America with a fully integrated taxicab system. When your in a power/manual wheelchair and need to go to the Emergency Room but don't need the rescue squid, soon as your discharged you need a ride don't feel like a bus, can't order CCT. Oh Boy, I would enjoy an accessible cab, I forgot Philly needs more, more, and more cabs.

Thank you,

Shawn Tucker
