Subject: Regulation 126-11

Good afternoon PPA,

I just want to informing you that Uber and Lyft are taken over the Cab corporations business in which we are suffering, causing the drivers who are operating our vehicles aren't making money to pay our business.

The cab owners and the cab drivers who lease the medallion can't afford to buy new vehicles, other cities such as Chicago has new vehicles hybrid on the road that can't be exceed more than 75 thousand miles. The vehicles on the road at Chicago they have no restriction of the miles when the vehicles are on the road they only have a restriction of 7 years.

In Philadelphia we have years and miles which aren't good for our business I believe, we should have the new vehicles no more than 75 thousand miles on the road so the cabs would be good for 7 years.

We recommend we should follow the same footstep as Chicago and the same rules and regulations as them since they have six times more business and cabs on the road than us.

Thank you,

Philadelphia Taxi Association Inc
