Proposed Rulemaking: Water Quality Standards; Class A Stream Redesignations

Dear Members of the Environmental Quality Board -

Thank you for the opportunity to submit on behalf of the Sierra Club PA Chapter, and the 395 members listed in the attached document, comments in support of the Board's proposal to amend the Pennsylvania Code to provide an extra layer of protection to approximately 207 miles of Pennsylvania's streams. 46 Pa. Bull. 1205 (March 5, 2016).

The waters that will be protected are used for a variety of important purposes, including drinking water supplies for humans, livestock and wildlife; fish consumption; irrigation for crops; aquatic life uses; recreation; and industrial water supplies, and deserve the strongest level of protection. The proposed redesignations will help Pennsylvania meet requirements of the federal Clean Water Act to protect the public health or welfare and enhance the quality of water. We strongly support additional legal "special protection" to these rivers and streams that are in excellent health and capable of supporting diverse aquatic life.

For these reasons, we support the EQB taking action to approve this rulemaking and provide these special waters with the special protection they deserve.

Sincerely,

Joanne Kilgour, Esq.
Director
Sierra Club PA Chapter
