re: PA Liquor Control Board Proposal Reg. 54-89

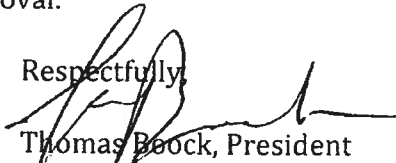

Dear Mr. Rodrigo Diaz,

The Pennsylvania Licensed Beverage & Tavern Association is writing today in full support of proposed IRRC Regulation #3142. The proposal allows Pennsylvania's retail licensees to pay for malt or brewed beverages with a credit card as well as a check.

This positive change will allow our hard-working small business owners more convenience in their purchases of malt or brewed beverages. Our association agrees with the Board's assessment, "Credit cards are widely used by businesses and consumers and importing distributors and distributors are already permitted to accept credit cards as payment from nonlicensee purchasers."

We would like to thank the PA Liquor Control Board for offering the proposed regulation and we look forward to final approval.

Respectfully,

Thomas Boock, President
Commonwealth Licensee

"The only statewide organization that exclusively represents the retail licensees of the Commonwealth."
