(10) State why the regulation is needed. Explain the compelling public interest that justifies the regulation. Describe who will benefit from the regulation. Quantify the benefits as completely as possible and approximate the number of people who will benefit.

This rulemaking will give certificate holders additional operational flexibility in the games that they provide to patrons and is needed to establish the rules of play. Patrons who play these games will benefit from the standardization of the rules of play.

(11) Are there any provisions that are more stringent than federal standards? If yes, identify the specific provisions and the compelling Pennsylvania interest that demands stronger regulations.

There are no corresponding federal standards for any of these provisions in this rulemaking.

(12) How does this regulation compare with those of the other states? How will this affect Pennsylvania's ability to compete with other states?

This rulemaking expands the compliment of table games available for patron play and should therefore not negatively impact Pennsylvania's ability to compete with other states.

(13) Will the regulation affect any other regulations of the promulgating agency or other state agencies? If yes, explain and provide specific citations.

This regulation will not affect any other regulations of the PGCB nor any other state agency.

(14) Describe the communications with and solicitation of input from the public, any advisory council/group, small businesses and groups representing small businesses in the development and drafting of the regulation. List the specific persons and/or groups who were involved. ("Small business" is defined in Section 3 of the Regulatory Review Act, Act 76 of 2012.)

No other persons or groups were involved in the development and drafting of the regulation.

(15) Identify the types and number of persons, businesses, small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012) and organizations which will be affected by the regulation. How are they affected?

There are currently twelve slot machine licensees that have a certificate to operate table games, all of which will be affected by the regulation in that they will have greater flexibility in the compliment of games available for patron play. Casinos that operate in the Commonwealth of Pennsylvania are not small business as defined in the United States Small Business Administration's Small Business Size Regulations, under 13 CFR Ch. 1 Part 121.

(16) List the persons, groups or entities, including small businesses, that will be required to comply with the regulation. Approximate the number that will be required to comply.

Any of the twelve slot machine licensees that would like to offer the game contained in this rulemaking will be required to comply with the requirements of the rulemaking.

(17) Identify the financial, economic and social impact of the regulation on individuals, small businesses, businesses and labor communities and other public and private organizations. Evaluate the benefits expected as a result of the regulation.

It is not anticipated that this rulemaking will have a negative financial or economic impact on the regulated community. Slot machine licensees will be impacted by this rulemaking as they will have a greater number of options to offer at their facilities.

(18) Explain how the benefits of the regulation outweigh any cost and adverse effects.

This rulemaking will add a new game and provide operators with more table game options to offer to patrons.

(19) Provide a specific estimate of the costs and/or savings to the **regulated community** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

Certificate holders that decide to offer the game will be required to submit updated rules submission forms and internal controls to reflect any addition. The rules forms are simple checklists that take little time to complete, are available to the operators electronically and are also submitted electronically. Any costs incurred to purchase equipment and train employees will be offset by the proceeds of gaming.

(20) Provide a specific estimate of the costs and/or savings to the **local governments** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

This rulemaking will have no fiscal impact on local governments. Host municipalities and counties will benefit from the local share funding that is mandated by Act 1.

(21) Provide a specific estimate of the costs and/or savings to the **state government** associated with the implementation of the regulation, including any legal, accounting, or consulting procedures which may be required. Explain how the dollar estimates were derived.

The Board does not expect that the requirements of this rulemaking will have any fiscal impact on the Board or any other Commonwealth agency. Internal control procedures and table games rules submissions will be reviewed by existing Board staff.

(22) For each of the groups and entities identified in items (19)-(21) above, submit a statement of legal, accounting or consulting procedures and additional reporting, recordkeeping or other paperwork, including copies of forms or reports, which will be required for implementation of the regulation and an explanation of measures which have been taken to minimize these requirements.

As stated above, if an operator would like to offer the game contained in this rulemaking, the operator will have to submit updated internal controls, rules submission forms, layout schematics, etc. for approval. The rules submission forms are straightforward checklists and are submitted electronically.

(23) In the table below, provide an estimate of the fiscal savings and costs associated with implementation and compliance for the regulated community, local government, and state government for the current year and five subsequent years.

	Current FY Year	FY +1 Year	FY +2 Year	FY +3 Year	FY +4 Year	FY +5 Year

(a) An identification and estimate of the number of small businesses subject to the regulation.

The twelve slot machine licensees that operate in the Commonwealth of Pennsylvania will be impacted by this rulemaking; however, in accordance with the United States Small Business Administration's Small Business Size Regulations, under 13 CFR Ch. 1 Part 121, none of the casinos qualify as a small business.

(b) The projected reporting, recordkeeping and other administrative costs required for compliance with the proposed regulation, including the type of professional skills necessary for preparation of the report or record.

(c) A statement of probable effect on impacted small businesses.

No special provisions have been added.

(26) Include a description of any alternative regulatory provisions which have been considered and rejected and a statement that the least burdensome acceptable alternative has been selected.

No alternative regulatory approaches were considered as this rulemaking contains the rules of play for table games.

(27) In conducting a regulatory flexibility analysis, explain whether regulatory methods were considered that will minimize any adverse impact on small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012), including:

As stated in (24), this rulemaking will impact slot machine licensees which are not small businesses under the United States Small Business Administration's Small Business Size Regulations.

a) The establishment of less stringent compliance or reporting requirements for small businesses;

N/A

b) The establishment of less stringent schedules or deadlines for compliance or reporting requirements for small businesses;

Please submit data or supporting materials with the regulatory package. If the material exceeds 50 pages, please provide it in a searchable electronic format or provide a list of citations and internet links that, where possible, can be accessed in a searchable format in lieu of the actual material. If other data was considered but not used, please explain why that data was determined not to be acceptable.

There is no data, as defined under section (3) of the Regulatory Review Act (71 P.S. § 745.3), upon which this rulemaking is based.

(29) Include a schedule for review of the regulation including:

Purpose of the Proposed Rulemaking

This proposed rulemaking will add a new table game to the compliment of games available for play in this Commonwealth.

Explanation

Section 681a.8 (relating to payout odds) outlines the permissible payout odds for winning wagers and section 681a.9 (relating to irregularities) addresses irregularities in play.

In 21 Baccarat, depending on the number of decks used for play of the game, the hold percentage for the optional Tie Wager is either 5.4% or 5.9% and between 5.8% and 8.0% for the optional Bonus Wager.

Annex A

TITLE 58. RECREATION

PART VII. GAMING CONTROL BOARD

Subpart K. TABLE GAMES

CHAPTER 681a. 21 BACCARAT

§ 681a.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Hard total – The total point count of a hand which contains no aces or which contains aces that are each counted as 1 in value.

Natural – A two-card hand containing two aces or one ace and one ten-value card.

Soft total – The total point count of a hand containing an ace when the ace is counted as 11 in value.

§ 681a.2. 21 Baccarat table; physical characteristics.

(a) 21 Baccarat shall be played at a table having betting positions for no more than eight players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a 21 Baccarat table shall be submitted to the Bureau of Gaming Operations and approved in accordance

with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) A separate betting area for each player designated for the placement of a wager on the Player's Hand.

(3) A separate betting area for each player designated for the placement of a wager on the Banker's Hand.

(4) A separate betting area for each player designated for the placement of the Bonus Wager on the Player's Hand.

(5) A separate betting area for each player designated for the placement of the Bonus Wager on the Banker's Hand.

(6) A separate betting area for each player designated for the placement of the Tie Wager.

(7) The following inscriptions:

(i) Hands shall draw to 16 and stand on all 17s or other similar language approved by the Executive Director in accordance with § 601a.10(a).

(ii) The payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds for all permissible wagers shall be posted at each 21 Baccarat table.

(c) Each 21 Baccarat table must have a drop box and a tip box attached on the same side of the table as, but on opposite

sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each 21 Baccarat table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 681a.3. Cards; number of decks; value of cards.

(a) 21 Baccarat shall be played with four or eight decks of cards.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, 21 Baccarat shall be played with two batches of four or eight decks of cards in accordance with the following requirements:

(1) An equal number of decks shall be included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a 21 Baccarat table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

(1) Any card from 2 to 10 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give the Player's Hand or Banker's Hand a score in excess of 21, in which case the ace shall have a value of 1.

(e) For purposes of the Bonus Wager, the hands eligible for a payout shall be:

(1) Three sevens, which is a hand containing three sevens.

(2) A three-of-a-kind, which is a hand containing three cards of the same rank.

(3) A three card straight, which is a hand with three cards in consecutive rank regardless of suit. For example: a five, seven and six.

(4) A three card 21, which is a hand containing three cards that total 21. For example: a six, six, nine.

(5) A pair, which is a hand containing two cards of the same rank regardless of suit (such as two 10s or two queens), provided that only the initial two cards dealt to the hand shall be considered for purposes of a payout for a pair. For example: if a player receives a five and a nine in the first two cards, then receives another five, the player would not be eligible for the payout.

§ 681a.4. Opening of the table for gaming.

(a) After receiving one or more batches of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 681a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards

shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)-(c) separate from the decks in the other batch of cards.

(e) If the batches of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)-(d) do not apply.

§ 681a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled, the dealer shall offer the stack of cards, with the backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table

and, working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 10 cards above the bottom of the stack.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be reshuffled or recut if the floorperson or above determines that the shuffle or cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe and the round of play is completed, as provided in § 681a.7 (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a 21 Baccarat table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt provided that the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)–(g) do not apply.

§ 681a.6. Wagers.

(a) Wagers at 21 Baccarat shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the 21 Baccarat layout.

(b) All wagers shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(c) To participate in a round of play, a player shall place a wager on either the Player's Hand or Banker's Hand. A wager on:

(1) The Player's Hand shall win if the total value of the cards dealt to the Player's Hand:

(i) Is 21 or less and is greater than the total value of the cards dealt to the Banker's Hand.

(ii) Is over 21 but is lower than the total value of the cards dealt to the Banker's Hand.

(2) The Banker's Hand shall win if the total value of the cards dealt to the Banker's Hand:

(i) Is 21 or less and is greater than the total value of the cards dealt to the Player's Hand.

(ii) Is over 21 but is lower than the total value of the cards dealt to the Player's Hand.

(d) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a wager in accordance with subsection (c), the option of placing any of the following optional wagers:

(1) A Tie Wager which shall win if the Banker's Hand and the Player's Hand are equal in value.

(2) A Bonus Wager on the Player's Hand which shall win if the Player's Hand contains a pair or better as described in § 681a.3(e) (relating to cards; number of decks; value of cards).

(3) A Bonus Wager on the Banker's Hand which shall win if the Banker's Hand contains a pair or better as described in § 681a.3(e).

§ 681a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 681a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

(1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

(2) Shuffle the cards so that they are randomly intermixed.

(e) After all Player or Banker Wagers and optional Tie and Bonus Wagers have been placed, the dealer shall deal the cards as follows:

(1) One card face up to the area in front of the table inventory container designated for the Player's Hand.

(2) One card face up to the area in front of the table inventory container designated for the Banker's Hand.

(3) A second card face up to the area for the Player's Hand.

(4) A second card face up to the area for the Banker's Hand.

(f) If either the Player's Hand or Banker's Hand is a natural:

(1) And if there were no Bonus Wagers placed, no additional cards may be dealt to either hand. All Player and Banker Wagers shall then be settled in accordance with subsections (h) - (j).
