**To:** IRRC  
**Cc:** Creston Tate  
**Subject:** 28 Pa Code §§ 23.81-23.87

2016 MAY -3 PM 3: 19

To whom it may concern:

There are some grave concerns regarding proposal IRRC #3147. The proposed changes to school children regarding vaccination demands. Firstly, under the proposed changes parents who choose to delay immunizations due to age, illnesses, or merely the individual liberty to choose that will not have enough flexibility in obtaining the required vaccines. Five days is far too short a provisional period. Besides the pain and normal reactions to vaccine shots, there may be danger in requiring too many vaccine doses in a short period of time. Parents in PA, who are citizens of the free nation of the United States, should have more time, perhaps 60 days is a better number of days, to develop a plan for their children to receive the required vaccines.
