**Subject:** IRRC1346 & 3147

1. I support the change in reporting deadline from October 15 to December 31.
2. I oppose the change in decreasing the provisional period for student enrollment from 240 days to 5 days...more time is needed for doctors appointment and taking off of work..etc.
3. I strongly oppose an additional meningococcal vaccine when entering 12 th grade...the disease is very rare and the vaccine has too many side effects.
4. I strongly oppose the change to adding another pertussis vaccine when entering kindergarten...the vaccine is currently under scrutiny for its lack of effectiveness and until more research is done..this should not be a requirement.
5. I strongly oppose the change of eliminating separate listings for measles, mumps, rubella, tetanus, diptheria, and pertussis...I want the option of giving these to my child separately so I can monitor any side effects.
