Please do not try to take my God given right to choose for my child away from me or my family. I've have done a lot of research on vaccines in the last 10 years. Some vaccines in general have been banned other countries. Forcing these on kids, against the will of the parent, should be illegal but here you are trying to legalize it and say that you're helping.... Amazing. If you truly want to help and do good, let the informed citizenry decide for themselves. Too many people die or have life changing reactions to these injections and they should not be **forced** on anyone.
