**Subject:** Mandatory Electronic Reporting

Regarding mandatory electronic reporting:

The current proposal requires home education programs to report immunization data to the Department electronically, and it makes no provision for using a paper form. While the proposal specifically gives public, private, parochial, or nonpublic schools the ability to use a paper form if they are unable to report electronically, no such provision is included for home education programs. Home education programs should have the ability to report on paper forms.

Thank you,
