Subject: Immunization update/proposed changes

2016 APR 22 AM 11:34

Dear Ms Findley,

I would like to comment on the proposed changes for school immunizations. I believe that the 5 day provisional change is very helpful for the health of our school children. Our students receive several letters and calls about the requirements, yet the deadline for provisional dates was very far away. Students go for months without being updated. This change will help all students meet the requirements in a more timely process and keep everyone protected.

Thank you.
