Subject: Proposed Immunization Regulations

2016 APR 22 AM 11:34

Hello Cynthia,

I wanted to touch base regarding the proposed immunization regulations. While I think this is a great step forward I do have concerns about how I will be able to achieve this all before school starts as I do not work over the summer. I have made suggestions throughout the years for some paid days over the summer to no avail. Ensuring all student's complete immunization at the start of school and/or enrollment (especially kindergarten students who often do not have their 5 year shots completed) would be an incredible challenge.

Thank you for your time,

--
