Subject: immunization reform

2016 APR 22 AM 11: 34

Hello Ms.Findley,

I am a Certified School Nurse at South Western High School in Penn Township, Hanover, PA. I think it is a great idea that we significantly reduce the provisional time for students, however, I am concerned that 5 days is a bit too drastic. Was there ever any talk of a 30 day provisional status? I believe 5 days could be a strain, not only on the students and their parents, but on the doctor's offices and clinics. Could you explain why 5 days was selected as the provisional status? I know, at our nurse meetings, we are all concerned about this.

Thank you in advance for your time, and for allowing concerns to be heard,

Randi Malinowski, RN, BSN, CSN
