Subject: immunizations

Good morning,

I am a CSN in the East Stroudsburg Area School District; I agree that the time frame for meeting the required immunizations need to be modified however, I think that going from a eight month provisional period to a 5 day provisional period is unrealistic especially since parents cannot obtain an appointment at the DOH for 6-8 weeks. I think there needs to be a transitional period for at least one school year before enforcing the 5 day provision . I think the provisional period should be at least 3 months giving parents enough time to schedule with the DOH if needed. Thank you
