Subject: immunization of all children attending school

2016 APR 28 AM 10:31

Dear Cynthia,

In regards to the proposed 5 day provisional period, it would be nearly impossible to be able to accomplish this with the current nurse student ratio.

I am still waiting for parents to comply with the 8 month provisional period. They have received numerous mailings and calls. I am told that our local pediatrician office does not use the SIIS system thus making it more difficult to confirm if students were vaccinated. At the beginning of the school year, there are so many items to get into order to manage day to day operations with medications and emergency cards.

What steps should a school nurse take if a student does not comply with the mandated screening? Some parents have turned in screening form that they will have private dental exam or physical and other do not turn in anything.

Thank You.
