**To:** Findley, Cynthia  
**Subject:** Proposed school immunization regulations

2016 APR 29 AM 9:58

Hello Ms. Findley,

I would like to comment on the proposal of changing the provisional period from 8 months to 5 days. I think it will be very difficult to enforce these changes in the first five days of school. The start up of the new school year is a very busy time for school nurses. Five days is not enough time to assess the immunization status of all students and notify parents of provisional status. A thirty to sixty day provisional period would be a more realistic time frame.

Thank you for your consideration in this matter.
