Subject: Immunization Regulations Proposed Changes

2016 MAY -2 AM 11:04

To Whom It May Concern,

At this time I would like to suggest that you do not make the new immunization changes effective until the start of the 2017/18 school year. This will be too difficult to implement prior to the start of the 2016/17 school year due to the limited work days prior to the start of school and time needed to notify parents. Also, health professionals would need to be made aware as this is often very difficult when trying to follow stated guidelines, the health professionals are not following the same guidelines. This makes it difficult for the school nurses as well as placing a burden on families to meet new guidelines in such a short period of time.
