**Subject:** Our Vaccine Rights

2016 MAY -4 AM 11: 27

Hello,

I am writing to let you know that it's very important to my family- and many others I know- to see our elected representatives upholding our rights to decide what is best for our children, including (but not limited to) choices involving vaccines. We should be able to decide if we want our children to have them, when we want them to be given, and, if applicable, which vaccines we want our children to have. The list of vaccines recommended for our children continues to grow, and we have the right, as parents, to decide whether or not we believe the list and schedule is what is truly best for our children. We appreciate you working to ensure that our parental freedoms aren't compromised by pressure from other groups, many of whom are financially motivated.

Thank you,

Lacey Snader
