I would like to know if this is a true statement. If a student is in grade 7 and does not have their Tdap and MCV, never receives their Tdap and MCV through the entire 7th grade. This student leaves grade 7 and enters grade 8 still not immunized for Tdap and MCV. Since this student is now in grade 8 do they remain provisionally enrolled or is this now all forgotten and we are no longer to keep that student provisional?
