Dear Board Members,

In response to your notification of Regulatory Fee increase I offer the following comments.

We are out of money and over spending in this Country, State, and State Agencies. We the people and hard working already pay enough in taxes and fees. I for one don't simply have the ability to just raise prices, or assess a fee to offset my costs. I must make severe sacrifices both personally and in my business. I for one work 80 hours a week. Not 40. I do not get weekends off. I do not get a vacation, I do not get paid holidays.

When those in Government that serve the people work like I do, and sacrifice like I do, then I will listen to a fee increase or a new tax. You state you need an increase to cover costs of training, equipment, and adding new personnel. I say this.

- Start working weekends to train.
- Start working 10-12 hour work days.
- Cut back on staff not increase staff.
- Do more with less like us out here.

Do whatever you need to do with what you have and what you take in. Because we, the working out here, just don't have much more to give. Every time I turn around this state wants more money, More Taxes, and More Fees. This turnip has been bled dry.

Sincerely,
Greg Hancock
