What could be the purpose of taxing a service that mitigates radon. Radon is not present in every home. It's bad enough to find radon in your home let alone discovering that the DEP will now tax you on it. Radon, I'm sure you know, causes cancer. are we really going to take advantage of people who might suffer the consequences of radon by charging them more money?

What will this tax be used for?

Sorry, I'm not a fan of this tax.
