Subject: Chapter 6100

I'm a Westmoreland County resident, and I disagree with Chapter 6100 because there is no need to make a change just for appearances that disrupts the lives of those most vulnerable.

We should be mindful of making such changes without having a substantial benefit to follow; and this bill fails to show me how there is any benefit beyond political cosmetics for our budget and society.

This type of politics is why my fellow neighbors and I strongly stood for our President Elect and I politely ask you to take more accountability and encourage you colleagues to get more results before rocking the boat.

Thank you
