Subject: Comment received - Proposed Rulemaking: Triennial Review of Water Quality Standards

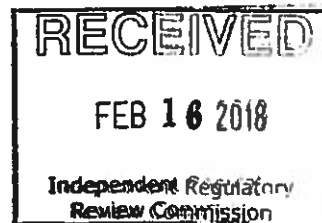

Re: eComment System

The Department of Environmental Protection has received the following comments on Proposed Rulemaking: Triennial Review of Water Quality Standards.

Commenter Information:

Margaret Clark
(megwclark@gmail.com)
205 Mill Road
Havertown, PA 19083 US

Comments entered:

I want to see water quality standards as high as possible, because I'm concerned about polluted water caused by dangerous chemicals that the state hasn't considered "toxic" in the past.

Please enact the strictest protections possible, and ensure that the definition of conservation easements used for the purpose of demonstrating that water is an outstanding national, state, regional or local resource should mirror the definition used in Pennsylvania's Conservation and Preservation Easements Act.

Thank you!
