Docket No.: L-2017-2628991

Dear Sir/Madam,

I am writing to request that the proposed amendments to the regulations for retail electricity service include a requirement to identify the source of the electricity customers will be purchasing and the resulting CO2 produced by each type of fuel.

I realize the focus of these changes is fair pricing, but it also extremely important to stress the environmental cost of purchasing electricity based on different fuel sources.

Sincerely,

Marion Storey Biddle
