Subject: I Support The New Overtime Rule

Bryan Smolock,

The business community wants to prevent you from implementing this, but actual working class people want you to make it happen. I strongly support the regulation being proposed by the PDLI to restore overtime pay to 465,000 workers. This move alone will give the PA economy a boost while decreasing financial burdens on literally thousands of Pennsylvanians from urban to rural communities. This is long past due.
