To whom it may concern,

I would like to make it known that I feel it is going to be too excessive of a fee hike for quite a few LMT's to be able to afford to renew their licenses. I feel like jumping from \$75 to \$200 is way too excessive for such a short period of a notice. I feel like smaller increments would be a better option. For those that are struggling financially to be able to meet the unexpected fee increase. I feel that going from \$75 to \$100, then maybe in 2 years going from \$100 to \$125, then increase by \$25 again until reaching the \$200 fee. I would also think that the initial license fee should also be higher since it requires more paperwork and time. I think it should be increase to \$125.

Thank you for your time,
Amy Cockroft, LMT
