Hello.

I am writing to tell about the disgust I felt when I heard you all are proposing to increase the license renewal fee to \$200.00. I am a stay at home mom who keeps her license current in case something would happen with my husband's job or if we need a second income to help out. Previously I worked at a chiropractic office. This is absolutely ridiculous, seeing as how all of the continuing education fees come out of our pockets. We paid for our schooling already. I understand there has to be some fee for initial licensing and renewal but increasing it by that much is absurd.

Thank you for hearing me. I hope you reconsider.

Brooklynn King, LMT
