Subject: proposed massage licensing fee increase
Date: Tuesday, July 3, 2018 5:55:52 AM

Dear PA Massage Board,

I have been a Licensed Massage Therapist in PA since its inception and doing massage for 22 years. I have not raised my prices since 2004 and although you may need a cost of living raise, the proposed increase for the biennial renewal is unreasonable and unconscionable. The cost for the mandatory continuing education classes keeps skyrocketing making it harder and harder to afford just maintaining these licenses.

Please do not raise the biennial fee more than the average cost of living.

Thank you,
Cindy Leonard
