Hello, I would like to voice my opposition of the proposed increase in massage license fees. The raising of the current 75 to 200 is not reasonable. I can see a smaller raise to cover the boards operations but that is too much to soon. Massage therapists dont make the same income as and osteopath which is around that same renewal of 200 biannual.

This is about being reasonable to the people who support the board. Over 2x increase is by no means resonable.

Thank you
Curtis Green L.M.T
