---

I am writing to reconsider the High price increase in fee to renew are excising license. We as massage therapist are scrapping to make a living doing massage. And prices of supplies, classes, rent keep increasing. Now you want to put a drastic %260 +increase in our licensing to \$200. I feel people will stopping renewing their license cause they can't make a living with this profession.

The fees for CEU course will increase cause of the increase in fees. unless your extend the length of how many years it will be good for. I think the increase is to drastic.

Sincerely yours  
Donna Blouch LMT
