To Whom it May Concern,

I am writing to express my opposition to these proposed financial hikes. This would be one more burdensome financial strain for me and other LMTs in an already crumbling economy.

I am also displeased with there being no concrete reasoning for this, including but not limited to financial book records, etc.

I am especially concerned of the biennial renewal fee increase proposition to \$200 dollars. That is too much. the most I can reasonably compromise on is the two current \$65 fees increasing to \$75 and the current \$75 fee staying the same.

Again, I am strongly apposed to these proposed fee increases.

thank you for reading this,  
gabe cantillo
