I just heard you want to increase the license fee?

If this is the case, I will no longer be an LMT.

What do you provide for this money?

Your board foolishly allowed the CEUs for woo and nonsense to count for renewal, which defeats the whole purpose of continuing education and makes us look like fools in front of the medical community that we want to be part of.

The board allows the loophole for "Asian Massage" which defeats the whole point of a license in the first place and further confuses the public.

If this passes, I will not be continuing to practice in PA.

We fought hard to get licensed and you are ruining it.

LMTs in my area don't earn enough money as it without this ridiculous fee increase on top of the CUEs that we must do.
